# WELCOME

## On Arrival.

- Pull the large main fuse on the lower part of the fuseboard in the inner hallway for all electricity. The fuses are marked in French but there is a French dictionary on the bookcase if needed. Spare fuses by fuse board.
- Communal under floor heating is throughout December-April. Heaters with controls are in the lounge, bedroom and bathroom.
- The water is switched off. There are two taps in the toilet, which need to be turned on-toilet and sinks. Constant 24 hours hot water-no switch required.
- The thermostat on the fridge should be set correctly as to not wake you during the night.
- A switch behind the left curtain operates the electric shutters. A manual emergency bar is on the top shelf in the toilet.
- Ensure the lounge patio doors are fully closed before locking as the locking bars are easily bent.

*Have an enjoyable visit.*

## On Departure.

- Close the shutters in the lounge and bedroom.
- Lock the exterior doors.
- Leave the fridge door open [defrost first].
- Ensure all individual heaters are fully off.
- Turn the two water taps off in the toilet.
- Switch off the main fuse.
- RETURN the KEYS.

*Have a safe journey home.*
